NOTE FOR MR. BUNDY

Mac --

Attached is a draft NSAM for your signature to record the President's approval of the FY 1965/1966 nuclear weapons dispersal authorization requested in the DOD memo dtd May 24, 1965.

Pages 1 and 2 of this draft NSAM are identical with the draft submitted by the DOD. Page 3 containing action #3 is new material that was drafted in the Department of State and informally suggested for inclusion in the NSAM to strengthen the hands of the people that are trying to make sure that we take a good hard look at what we commit ourselves to post-MC 26/4. If you feel that this exceeds the scope of the President's approval, we can either drop it entirely, in which case you can sign at the bottom of page 2, or we can rewrite the third page deleting references to the President and making it entirely third person.
