FOR THE PRESIDENT

FROM: Joe Callfano

We have now completed the assignments for collecting all background materials relating to the 50 most significant legislative achievements of your Administration. The basic sources of information will be central files, and the files maintained by Gaither (Task Forces), Sanders and Manatos. In addition, we will attempt to collect all of the relevant memoranda and other documents which may be elsewhere in the Executive Office, including CEA and Budget files.

We hope to have the files ready for review by November 15, and with a target for completion of December 1.

Attached is a list of the major bills and the persons to whom they have been assigned.
