

TEXAN

Saturday 10:15 A.M.

Deering:

We are only about 50 min
out of St Louis & I hope to have
this letter ^{ready} to mail to you when

We get there -

Last night I had little trouble
going to sleep but waked too
early this A.M. and still feel
tired. Have spent most of the
morning reading the material
I will need to have at my
finger tips Monday -

It was more difficult to leave
you last night than I had
anticipated - & have learned

2

to lean on you so much.

I'm sure it is hard for you to realize how much you have contributed to my peace of mind - to stimulating me to bigger and better things and to making my life so much more fuller and happier since you joined me 10 months ago today. Never have I been so dependent on anyone. - Never shall I expect so much of any other individual - and dear it is most comforting and reassuring to know that you do such a swell job.

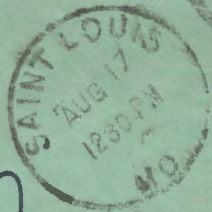

You do every day ~~what~~ with your job what I want

To do with mine and you
know something of my ambitions.

I enjoyed every minute
with your Daddy - Each visit
I have only Cements and
Confirms my first opinion -
that he is truly a remarkable
man - a strong Character -
possessed with Vision and
sound judgment.

Dearest here are 4 kisses -
I'll hurry back because there
is no place complete without
you - We are going to have
a swell time this year in our
home. Plenty of play, pleasure and planning
are in store - ... kisses for you. Love - Gordon
