

Darling:

Your sweet letter written at 6:45
Friday made me just as happy as
your Wednesday letter made me sad.
You do know that I'm coming home the
first minute I can get away from the
work here - don't you? You do know
that it won't be November - don't you? You
do know that I didn't intend to indicate
any such thing when I made that
statement but rather was expressing
my disgust at having had to stay
this long and it seems as long
as November. Now let's forget all that.
We have too many pleasant things
to think about, don't we - For instance
everytime I get blue I think how

²
= lucky I am to have you and
how kind fate has been to both of
us, good health - good name and
the satisfaction of being in a position
to make life better for so many who
can't do it for themselves. We have
already done enough together for
others to coast for several years -
haven't we dear?

About the house, darling - I'm like
not very enthusiastic about anything
that is long and drawn out - I've
never been and I don't kid myself
and don't try to kid you. I wanted
you to build a house when you
went home for 3 reasons: 1. Because
you wanted a house 2. Because I
wanted a place to live when I
got home 3. Because I wanted a
square bath tub (H) an outside terrace

(3) (c) and a Murphy bed in the living
room. When I learned that the house
couldn't be ready until November
just before we come back and had
thrown in the suggestion - no square
bath - no terrace - no Murphy &
wasn't enthusiastic altho I tried not
to be critical because I know you
are not in anyway to blame.

Then too I'm broke and know the
former people are going to run
someone against me and that
means thousands for a campaign
and if I borrowed my capacity
for a house I might not have
ready cash in March and April
when I need it. But darling whatever
is done I'll be happy - you know
the thing I'm most interested in

4 now is keeping you happy and
getting home to be happy with you.

I've bought you some pretty
things - Watch for them - They will
be along soon - I tried to

telephone you tonight but
you were in San M. - hence

I'll insert the same amount
in perfume for you tomorrow

I am sure you'll enjoy it
more - at least it will last

longer. all I was going to say
you already know - I love

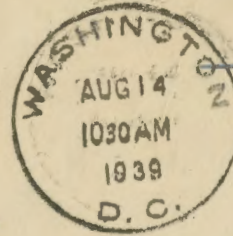

you more every day - love you

love you ^{Kisses + spots} o o o o o o o o o o

Please take 6 more golf lessons by the
time I get home - Please - please - in com
soon as I can. Senator man come next week - ~~that~~
love
