Congress of the United States
House of Representatives
Washington, D. C.

Wednesday -

My dearest -

Am so glad you are having a good visit at Santa Fe. Wish I could leave here this minute and join you. Wouldn't it be grand to get to spend a few days out in N.M. together? Your letter describing the trip reminded me of the time we drove Mr Hays to El Paso. Things have changed a lot since then but I doubt that I was ever more contented and happier - I get sad sometimes when I realize how little we see of our old time friends -

Talked to both George and Herman yesterday. George in Houston - Herman

2
in Corpus. I believe Herman is working
too hard and I'm not at all happy
about George's continuing to attempt to
maintain an interest in the work
going on. Unless I miss my guess
he is a sick little boy and must
forget everything but getting that ^{"Tummy"}
well. He is the sweetest person I've
ever known and it is such a treat
to be with him.

He's asking Walter to write you
today and for you all to get
together on the Brownee Checks -

Found my white Panama-
hats - sorry for the trouble
Senator Wertz went to Houston

3/11
last Saturday and returned Tues. a.m. -
His brother Milton was desperately low
but is getting better now. I met Senator
at the airport yesterday morning ^(6:30 am) and
spent some time with him. Kettle
May gave us breakfast and it was
a very good one.

Don't know anymore about the
Campaign than I did when you left.
Tom C. is out for a few days - the
boss is away and it looks as
if Willie is having a field
day.
Things look better for Buhner

and I believe Churchill is more
confident than he has been at
any time -

We will pass the Tax and
Conscription bills I think and
if we have the votes and nothing
new comes up we may get
away from here early in
Sept -

I miss you dear - I'm quite
lonesome for you today - I love
you, lots and want to hear
all that you are doing -
A.H.
