

My dearest:

I had planned to write you all day but it was such a hectic day that I've postponed it until tonight -

I've seen the Senator twice on Marshall Field, have talked to him several times and have kept myself reasonably well occupied all day. Tomorrow he will see the President and I hope & mil. will be following to finish our job down there - We are also trying to get a munitions plant and a wooden mill but the prospects aren't too bright -

You and Margaret and Alice must be having a great time - I wish I could steal away long enough to spend at least a dozen days in Coal Santa Fe with you, I think adjournment will come about the middle

≡≡≡ of September but when we will get back  
in Austin and get settled will depend on  
Campaign developments <sup>and</sup> depend on support  
in them. If we are to receive the  
Maximum benefit from developments we  
must be ready to take what Flyer  
tells us to do and where -

I love you - I wish you could  
find more time to write -

Love  
~~Bob~~
