

Fri. A.M.

Please date your
letters!

My dear:

Little did I ever think I would become as
dependent on anyones letters as I am on yours.
Two notes from Sunday thro' Friday make me feel
as a hungry man does when the hostess after 3 hrs. Waiting
serves a light salad instead of a 3 in. Steak. The above is not
meant as criticism - it means I hunger for you and
work from you and life is so different when there
passes a day without a line - Please never leave the
office without posting a long air mail to me -

All has not gone well this week. Almost over
and little actual progress - I'm fearful of losing
my own self respect if things don't go better. There
isn't any real place for me here. Initiative
is frowned upon and I'm unable to find any
leadership or direction from any source.
Plans were well laid for Houston, Corpus & San Diego.
My Wash. office could not clear the 1st two and
the Navy killed the third. At L.A. we were getting
going at Lockheed and Wash. Cuts down on material
Lockheed goes back to the 5 da. week - men are
turned off - therefore no planned training. Here
at Frisco. We start over - but we end up
the same place - Complacency no vision - jealousy.
Excuse me please. I'll be here next week then
to ~~Seattle~~ ^{Seattle}. Jesse still here will return about
March 1st. I enjoy him and he is much

More helpful than one could imagine. John
as usual is a life saver - Tell Nellie I'm
convinced he is the best ever and her stock
is above par with me always for having sense
enough to see merit and love it.

Saw Otto Corder last night. We had
hamburgers together and talked Johnson City.
I enjoyed the note from Senator - if
only he would write them more often. How
I long to get back in the saddle and start
riding hard - I'm writing Senator at Austin
today - perhaps he will take time out and
reply in full.

It did me good to learn from Charlie
that Sherman had written. Please write
him that it made me feel happy to know
he was riding fence again. Also Harvey Payne
and Ray Lee if you've heard from them.

I wish Grace Tully, Bill Douglas and Tom P.
would hurry with their plan for me to get back
to work - if they haven't forgotten. Hope you
meet Cornell Mullett. he is one of my favorites
and I may be attached to his outfit. Ask Virginia
to have him over sometime. Tell me if you've
seen Joe Forestal or the Poves, or the Carcassier or
the Speaker - do look after him if he is ill. Are you in
love yet? How are the Harkers? Any romances? I love you. ~~est~~
