

FOLDER TITLE LIST and SUBCATEGORY DESCRIPTIONS

Collection: Senate Papers of Lyndon B. Johnson, 1948 - 1961

Series: Master File Indexes, 3/1953 - 1/1961 [NAID 17408921]

<https://www.discoverlbj.org/exhibits/show/loh/prepres/sen>

For list of folder titles, see page 4.

Scope and content note:

The series consists primarily of peach or salmon colored carbon copies of outgoing letters and interoffice memorandums annotated with the file classification of the incoming constituent correspondence and other correspondence. Johnson's Senate staff prepared the carbon copies chiefly for correspondence maintained by his Texas Senate office, but the series does include a few carbon copies of Democratic Policy Committee correspondence, Senate Committee on Armed Services Preparedness Subcommittee correspondence, Lady Bird Johnson's correspondence, and campaign correspondence. When the Senate was not in session, much of Johnson's correspondence was answered in Texas, and the series usually includes carbons reflecting the file locations of that correspondence. Carbon copies on green paper index Preparedness Subcommittee correspondence; pink and yellow carbons are copies of the "LBJ for President" campaign correspondence.

"MASTER FILE" INDEX, 1953-61. Boxes 1-213.

The index set up on March 23, 1953 is a "master file" consisting of extra carbon copies (usually on peach or salmon color tissue of outgoing correspondence and interoffice memoranda stamped or annotated with the file classification of the correspondence. Many "master file" copies (also called "masters" were accumulated in folders that were arranged chronologically by day. Some of these copies were not marked with file classifications. Some "master file" copies remained with the correspondence. The chronologically arranged copies and some of the copies found with the correspondence have been interfiled in alphabetical sequence. (A few "master file" copies of letters that may never have been sent remain with the correspondence.

FOLDER TITLE LIST and SUBCATEGORY DESCRIPTIONS

Collection: Senate Papers of Lyndon B. Johnson, 1949 - 1961
 Series: Master File Indexes, 3/1953 - 1/1961 [NAID 17408921]

The “master file” copies were prepared chiefly for Texas Office mail, but include copies of some Policy Committee and Preparedness Subcommittee correspondence, some campaign correspondence, and a few of Mrs. Johnson’s letters. In the 1960 “Masters,” copies on green tissue are “Texas Office masters” of the Preparedness Subcommittee correspondence. The copies on pink and yellow tissue are copies of “LBJ for President” campaign correspondence. While most of the “master file” copies of outgoing letters are filed alphabetically by the name of the correspondent, some copies of letters to Federal agency officials are filed alphabetically by the name of the constituent who was the subject of the letter. Copies of interoffice memoranda may be filed alphabetically by the name of the addressor, the addressee, or the person who was the subject of the memorandum. Copies of book telegrams may be filed under “BOO” or under the first name on the list of persons to whom the telegram was sent. The “master file” indexes are not complete. “Masters” were not always prepared for mail answered by form letters on robotypewriters and for correspondence answered at the Ranch.

Originally, the “Masters” consisted of eight separate files, one for each year from 1953 through 1960. Correspondence from January 1961 was filed in the 1960 file. Each of the files consisted of 300 alphabetically arranged and numbered folders. The staff used identical sets of numbered folders each year, so each year’s arrangement was the same with the exception of a few unnumbered name folders interfiled in the collection. For example, every year “master file” copies of correspondence to James Aston would be filed in folder number 9, “As-At,” for the appropriate year. In addition to the 300 alphabetical folders, unnumbered folders containing correspondence and interoffice memoranda were interfiled in each year’s file. For example, the 1955 file contained unnumbered folders titled: “Perry Memos,” “Walter Jenkins,” “Sam Houston Johnson,” Booth Mooney,” Dorothy Nichols,” and “George Reedy.”

In 1978, before the Senate papers were opened for research, the “Masters” were rearranged to facilitate use. The folders are arranged so that all folders containing the same portion of the alphabet are filed together. The appropriate file’s year is stamped in ink on each folder. Thus, all folders numbered one, “Aa-Ac, Adams” 1953-60, are filed together. Unnumbered folders are filed following the numbered folders which would normally contain the name on the label. Thus, Walter Jenkins folder, 1955-60, follow the 1953 through 1960 folders “je-Jog,” numbered 107.

In each file a few documents dated in January of the following year or December of the preceding year were filed in the index of a particular year. In these cases, the correspondence cross referenced will be filed in the subject or case file corresponding to the “master file” year rather than the date on the correspondence. For example, a letter dated January 2, 1957, found in the 1956 “master file” folder and cross referenced to the “Case and Project File” refers to the 1956 rather than the 1957 “Case and Project File.” Therefore, these items should not be moved to the appropriate “master file” folder.

FOLDER TITLE LIST and SUBCATEGORY DESCRIPTIONS

Collection: Senate Papers of Lyndon B. Johnson, 1949 - 1961
Series: Master File Indexes, 3/1953 - 1/1961 [NAID 17408921]

When the files were reorganized in 1958, many Case and Project and "Legislative" Files were moved to the 1958 Subject File. The "Masters" do not reflect the change. Many items originally located in the Senate papers have been removed and placed in the "LBJA" (Lyndon B. Johnson Archives) Series. The "Masters" do not reflect these changes.

Some correspondence and memoranda that the index copy shows as classified for the "Subject File," particularly those classified "Election" and "Politics" are filed with the "Papers Relating to the 1960 Campaign." Correspondence filed with the campaign papers is frequently unarranged and very difficult to locate. Folders of the "Subject File" material in the campaign papers have been described, but many classified papers are filed in folders with unclassified papers, and thus are undescribed.

1956 CONVENTION "MASTER FILE" INDEX. April-August, 1956. Boxes 209-10.

The convention "masters" for 1956 are peach tissue copies of correspondence concerning Senator Johnson's favorite son candidacy for President, Texas precinct conventions, the Texas State Democratic Convention, and the Democratic National Convention. Although not all the "masters" show a file designation, most have the designation "General, Convention" or "Convention." The files these designations refer to are not located in the 1956 "General Files." Many of the letters are filed in the 1956 Political Files.

1960 CONVENTION "MASTER FILE" INDEX. June 1960. Boxes 211-13.

The convention "masters" for 1960 are peach and pink tissue copies of letters urging people to request their delegates to the Democratic National Convention to support Lyndon Johnson for the Democratic presidential nomination. Pink carbons were used for "LBJ for President" correspondence. No file designations are recorded on the carbons.
