**For list of folder titles, see page 8.**

### Scope and content note:

The series includes correspondence, memorandums, form letters, notes and work papers, copies of bills, transcripts of hearings, bill reports, clippings, and other materials.

The Legislative Files include material related to legislation proposed in the Senate in 1949-1958, the 81st through the 85th Congresses, as well as legislation sponsored by Lyndon Johnson in 1949-1960, the 81st through the 86th Congresses. The files relate to proposed public and private bills and cover a broad range of topics, including: Senator Johnson's maiden speech in the Senate on March 9, 1949, which was part of a filibuster against a resolution to revise Senate Rule XII, the rule governing Senate filibusters; desegregation and civil rights, including the Civil Rights Act of 1957; education and student loans; highways, public works and public power projects; water and water conservation; labor disputes; the Taft-Hartley Act and other labor legislation; statehood for Alaska and Hawaii; foreign aid; foreign affairs, including China policy, President Truman's firing of General MacArthur, the Korean War, and the Bricker Amendment; national parks; natural resources, including natural gas, oil, and the oil depletion allowance; defense, including national preparedness, mutual security, and universal military training; agriculture, including crops, livestock, agricultural products, price supports, farm credit, and migratory farm labor; tidelands; tariffs; taxes, including excise taxes, income taxes, and tax reduction; exports, imports, reciprocal trade, and interstate and foreign commerce; immigration and displaced persons; government reorganization; social security; railroad employees' retirement; pay raises; pensions; benefits for federal and postal employees; the addition of Federal judgeships; the national budget.

### **CORRESPONDENCE RELATING TO MR. JOHNSON'S MAIDEN SPEECH IN THE SENATE, 1949. 4 ½ inches. Box 214.**

Senator Johnson made the speech on March 9, 1949, as part of the Southern filibuster against a resolution to revise Senate Rule XXII. The revision would have made it easier to invoke cloture, ending any attempt to filibuster the President's proposed civil rights legislation. The correspondence also contains references to Mr. Johnson's vote on the Taft-Hartley law. The correspondence, together with a few newspaper clippings, is arranged chronologically by month, March-August.

### **"LEGISLATIVE FILES," 1949-50. 16 inches. Boxes 215-218.**

The files are chiefly correspondence with constituents about proposed and pending legislation, but also include copies of bills, hearings, and Senator Johnson's work papers. Judging from file designations referred to in the 1949-50 card index, large parts of these files are missing.

The files include two folders of postcards and letters sent to Mr. Johnson answering a labor legislation questionnaire that was broadcast by Fulton Lewis, Jr., a radio news commentator. He broadcast nineteen questions relating to proposed changes to the Taft-Hartley Act and urged his listeners to send the answers to their Senators and Congressmen. The broadcast was carried on a nationwide network, February 24 and 28, 1949.

### **CORRESPONDENCE RELATING TO PRIVATE BILLS, 1949-50. 1 inch. Boxes 218-219.**

The files include eight envelopes of correspondence with constituents, interested Members of the Texas Delegation, and Members of Congressional committees to which the bills are referred; memoranda; and printed copies of bills and related reports.

### **"LEGISLATIVE FILES," 1950-52. 10 feet. Boxes 219-245.**

The bulk of the "Legislative Files" is mail from constituents and lobbyists, together with newspaper clippings, resolutions of city councils, and other enclosures, relating to pending and proposed legislation and other matters requiring Senate action. The file does include correspondence, bill reports, hearings, memoranda, and work papers pertaining to legislation, including legislation sponsored by Mr. Johnson in the 81st and 82nd Congresses. The files "Tin," "Petroleum," and "Rubber" contain material concerning Mr. Johnson's Armed Services Committee subcommittee assignments.

Collection: Senate Papers of Lyndon B. Johnson, 1949 - 1961

Series: Legislative Files, 1948 - 1960 [ NAID 17408923 ]

<https://www.discoverlbj.org/exhibits/show/loh/prepres/sen>

"General" folders are filed at the beginning of the file. These contain correspondence on a variety of topics including topics for which separate folders later appear in the file, such as universal military training. However, these items include the file designation of "leg. general" on the documents.

The "Foreign Policy" folders contain correspondence concerning China policy and the removal of General MacArthur from his command. Many of these items include the file designation "leg. far eastern policy," but are filed here.

In several cases, material on a subject is filed in several different subject folders, for example, similar material is filed in the subjects "Steel Dispute" and "Wage Stabilization."

The arrangement of these files is based on the list in a memorandum dated June 13, 1951, in the "Interoffice Memoranda," which is attached. The file designations appear on outgoing carbon copies in the lower left under the text. Many of the subjects listed in the attached memo are missing from the files. In March 1953, the files were reorganized. Apparently, material from January through March of 1953 which shows the earlier "Legislative Files" subject classifications was moved to the new "Legislative," "General," and "Case and Project" files for 1953.

### **LETTERS THAT WERE ANSWERED BY FORM LETTERS, 1950-1952. 4 ½ inches. Box 245.**

These letters are similar to the mail in the "Legislative Files" in boxes 219-245. The correspondence does not include carbon copies of outgoing letters and the number of the form response is written on the incoming letter.

### **(FRAGMENTS OF) "LEGISLATIVE FILES" ARRANGED BY NAME OF COMMITTEE, 1949-1953. 2 inches. Box 246.**

These files consist of letters that were referred to the appropriate Senate Committee. The letters are similar to much of the mail in the "Legislative Files" in boxes 219-245.

### **CORRESPONDENCE RELATING TO PRIVATE BILLS, 1951-53. 1 inch. Box 246.**

Most of the requests deal with foreign born children adopted by American parents. Since private bills of this nature were not handled in the Senate at the time, each applicant was advised to get in touch with his Congressman to have a bill introduced in the House of Representatives. One folder, "Griffith, Llewellyn B.," concerns legislation introduced by Senator Johnson.

<https://www.discoverlbj.org/exhibits/show/loh/prepres/sen>

The requests were in seventeen envelopes, but several have been placed in folders. In a few cases, notes concerning action on the requests were made on the front of the envelopes; these files were not refoldered.

### **"LEGISLATIVE FILES," 1953-1954. 4 feet. Boxes 246-252.**

These files contain mail from constituents and lobbyists relating to pending and proposed legislation and copies of bills, reports, memoranda, and work papers relating to some pieces of legislation. Papers in this series which were originally filed in the "Case and Project" or "General" files have been returned to the proper file. Papers relating to Mr. Johnson's committee and subcommittee assignments and to legislation that he introduced are filed in other series.

The papers are filed by subject and thereunder by title or subject of the bill. A brief survey of the "Masters" file showed many cross references to subject categories which are missing from this file and are presumed lost. These include such categories as "National Defense--Korea," "Foreign Relations-Bricker Amendment," and "Social Welfare-Social Security."

Some items in the file dated in early 1953 bear file designations for the "Legislative Files" for 1950-1952. Apparently, these were placed in the 1953-1954 "Legislative Files" during the March 1953 files reorganization. The card indexes of correspondence show these early file designations but do not reflect the items' transfer to the new file. These early items are not cross referenced in the "Masters."

All material dealing with legislation was not filed in the "Legislative Files." Frequently, legislative material was filed in the "Case and Project Files," particularly items concerning public works, water projects, and agricultural bills.

### **"LEGISLATIVE FILES," 1955-1956. 25 feet. Boxes 253-282.**

These files contain mail from constituents and lobbyists relating to pending and proposed legislation and copies of bills, reports, memoranda, and work papers relating to some pieces of legislation. Many folders contain letters from constituents which were answered by form letters. Papers relating to Mr. Johnson's committee and subcommittee assignments, and to legislation that he introduced, are filed in other series.

The papers are filed by the name of the committee considering the legislation, and filed thereunder by title or subject of the bill. However, material dealing with tax legislation is filed under "Taxes" rather than under the Finance Committee.

Correspondence with a black crayon file designation is cross referenced in the "Masters." However, the mail answered by form letters does not appear to be cross referenced. It is unclear if the folders of form letter mail were originally filed here or if they were filed in a separate series and later interfiled in the "Legislative Files."

It appears that at one time there may have been an attempt to rearrange the files in a subject system similar to that instituted in Senator Johnson's office in 1958. A number of items had subject file designations written in pencil above the original file designation. These pencil markings were ignored during processing at the Johnson Library and original order maintained. In a few cases, Policy Committee correspondence, Austin Office correspondence, General File material, and Case and Project files had the new designations and had been interfiled in the "Legislative Files." Although the items dealt with subjects such as "Labor," they did not deal with legislation. These items have been returned to their original file. Policy Committee material was transferred to the LBJA Subject File.

In a few cases material in the General and Case and Project Files was attached to later correspondence from a constituent and filed with the latest letter in the "Legislative File." These items remain in the "Legislative File."

### **"LEGISLATIVE FILES," 1957-58. 4 feet. Boxes 283-293.**

These files contain mail from constituents and lobbyists relating to pending and proposed legislation and copies of bills, reports, memoranda, and work papers relating to some pieces of legislation. Papers relating to Mr. Johnson's committee and subcommittee assignments, and to legislation that he introduced are filed in other series. Papers in the "Legislative files" are filed by the name of the committee considering the legislation, and filed thereunder by title or subject of the bill.

Correspondence with a black crayon or black ink stamped file designation is cross referenced in the "Masters." The file contains some correspondence answered by form letters which is not cross referenced.

In 1958 the files were reorganized. After the reorganization, material dealing with legislation was not longer filed in the "Legislative File;" it was filed in the classified subject system set during the reorganization. An effort was made to remove earlier 1958 material from the "Legislative Files" and interfile it in the 1958 Subject File. The "Masters" were not changed to reflect this transfer and refer to the original file. The effort to transfer the material was not completed. Although most 1958 material

In a few cases, Policy Committee correspondence and material from the Case and Project Files had been filed in the "Legislative Files." The Policy Committee material was transferred to the LBJA Subject File. 1957 Case and Project Files have been returned to the Case and Project File. 1958 Case and Project Files have been interfiled in the 1958 Subject File.

### **FILES RELATING TO SENATOR JOHNSON'S LEGISLATION, 1949-1960. 5 feet. Boxes 294-307.**

The files include drafts and printed copies of bills and resolutions; correspondence with other Members of Congress, interested constituents, and lobbyists; copies of statements and congressional reports; and interoffice memoranda.

Material concerns bills and resolutions introduced or sponsored by Senator Johnson; bills drafted or proposed for introduction that Mr. Johnson did not introduce, and amendments to legislation introduced by other Members of Congress. Many documents and folders in this collection have been brought forward from other files, particularly the "Case and Project Files" and the "General Files." A few items appear to have been filed originally in the Policy Committee Files. Material dealing with Johnson sponsored legislation is also filed in "Legislative Files," 1948-1950, "Legislative Files," 1950-1952, and in the 1959 and 1960 "Subject Files." Apparently files were not maintained for all Johnson legislation. For papers relating to private legislation sponsored by the Senator, see the separate series, Files Relating to Private Bills, 1951-1960; Correspondence Relating to Private Bills, 1949-1950; and Correspondence Relating to Private Bills, 1951-1953.

The folders are arranged by the Congress and session that legislation was introduced and thereunder by resolution or bill number. General folders and folders for legislation which was drafted but not introduced are filed in front of the other legislation for the respective session of Congress. A few folders pertaining to Texas Delegation Legislation are also filed at the front of sections for respective session of Congress. Folders for amendments offered to other people's legislation are filed at the end of bills for the respective session. Material on bills which were reintroduced in later sessions of Congress was usually brought forward and filed under the new bill number. The folder title list indicates where this material is located.

A list of major legislation sponsored by Senator Johnson is filed at the front of the collection.

### **FILES RELATING TO PRIVATE BILLS, 1951-1960. 3 feet. Boxes 308-312.**

The files are predominantly correspondence with applicants for private bills, their agents, Members of Congress who introduced the bills, and Members of the House and Senate Committees concerned with the bills. Also included are copies of bills, reports, and interoffice memoranda.

The bills, their agents, Members of Congress who introduced the bills, and Members of the House and Senate Committees concerned with the bills. Also included are copies of bills, reports, and interoffice memoranda.

The bills were pending in 1953 when Mr. Johnson became Democratic leader or were introduced later. They include those sponsored by Mr. Johnson, by other Members of the Texas delegation, and by other Senators. Most of the bills relate to claims or to the granting of American citizenship to foreign born children adopted by American couples. Many of the latter bills were covered under the provisions of the 1957 amendments to the Immigration and Nationality Act (71 Stat. 639). The papers relating to private bills dealing with land matters are usually found in other legislative files.

The files are arranged alphabetically by the name of the person seeking relief. A general folder and a folder concerning Korean war orphans appear at the front of the collection. The folder list indicates which bills were sponsored by Lyndon Johnson. Although additional information appeared on many labels, the folder title list includes only names and, in many cases, bill numbers.
