### SENATE PAPERS: Sam Houston Johnson Memorandum Files

#### Scope and content:

Lyndon Johnson's brother, Sam Houston Johnson worked on the Senator's staff as an aide.

The memo file was apparently maintained with Policy Committee Files, although Sam Houston Johnson may have actually been a part of the Senator's Texas office staff rather than the Policy Committee staff in 1958. Most of the memoranda are typed ribbon copies which went to the Senator; they concern a variety of legislative and political topics.
