This meeting was primarily a discussion by the President of a number of advances that have been made in the field of civil rights and appointments and the legislative program. Discussed his new legislative program and his request for as much assistance as is possible on the three major legislative civil rights programs in this session. Stressed the importance of legislation and he also stressed several other Great Society measures that relate to the welfare, and education of minority gps such as poverty, education and such programs. Talked about various people that he has appointed to jobs (Negros). This mtg w/the President was the highlight of their day and they were most impressed with his warmth and with his taking this much time with them knowing his busy schedule. They all are going to do all they can to be of help to the President in his Great Society programs. (Mr. John Murphy, Afro-American, Baltimore, Md. - gave the President a 5x7 gold finish frame w/color pic of the Pres. sitting at his desk, his arms and hands on top of his head - in a very relaxed position -- that Mr. Murphy took when he was here for a similar gathering in 1965)
