

Dorothy,

This is the telephone book which we used in VP days while traveling.

As you can see from the things in the back of the book, it was the book I was carrying and using on November 22, 1963.

OFFICE OF THE VICE PRESIDENT
WASHINGTON

Juanita, Marie and Yolanda:

Mildred Stegall called to say she was sending a memo to the VP per his request concerning FTS telephone system.

/ She said we would probably have a chance to read the memo but also asked that we use this number --- 962-5021 --- when NOT calling on Code 100. Further said "we are running out of telephone money" and it is necessary we use this system to save dinero (money).

MEMORANDUM:

TO: The Vice President

FROM: Walter

You wanted to know how to use the new GSA telephone system when you are placing a call from home or other than through the Government Code.

The procedure is as follows from a non-Government line:

(1) Dial 962 5021 and the special operator will answer.

(2) State that it is the Vice President's office placing the call so that the call can be billed properly.

(3) Give the special operator our code number, which is 03 0019001.

(4) Tell the special operator the name of the city with which you wish to be connected and she will give you the dial tone in that city.

(5) If you know the number of the party you are calling, you dial that number the same as if you were in that city.

(6) If you do not know the number of the person you are calling, then you tell the special operator that you wish to be connected with information in the city concerned.

(7) She will give you information who, in turn, will give you the correct number.

(8) It will then be necessary for you to go through the same procedure listed above in order to get the number to ring.
