PRELIMINARY TASK FORCE LIST

The following list is of a preliminary nature and should not be taken as a definitive listing of all Presidential task forces. The chairmanship of the task forces was determined in two ways: the person named in the establishing memo setting up the task force, or the person that signed the letter transmitting the task force report to the President. The reports that are (*) are not definitely Presidential task forces. They have been on this list because their purpose seems to be the same as that of task forces -- to suggest legislative proposals for the President. As more information is solicited regarding task forces, this list will be updated.
