[illegible]

Both Marie and Mary are in Dallas and there is no one to read the President's diary to me --except the President and Jake.

This is all the info the agents have on their shift reports. Also asked Helen, Mary Davis, and Pat Nugent and this is all they could remember. I can improve when Mary Slater reads me the President's diary. PDC

President's diary is not finished for this day. Will add other info as soon as it is.
