Scope and content note:

This collection consists of files created, selected and maintained by Horace Busby during his time as Special Assistant to President Lyndon B. Johnson. The majority of the collection dates from the period during which Busby served as Special Assistant to the President and Secretary of the Cabinet, but there are also select materials from Johnson's Senate years. The topics and materials are broad in scope and demonstrate Busby's role as advisor, speechwriter, and confidant to President Johnson. There are files that cover legislative topics and subjects of interest to the Johnson administration; meeting notes and published committee hearings; memorandums to Johnson staffers and government officials; and Busby's speech drafts and remarks prepared for President Johnson.
