AIDES FILES: WALTER JENKINS

Scope and content note:

This collection consists of materials related to Walter Jenkins in his role as Special Assistant to the President and in his role as an aide to Lyndon B. Johnson while Johnson served as a United States Senator and Vice President. The collection is divided into four series, with two series of box numbering.

The Telephone Conversations series (also known as Series 2) includes shorthand notes taken by Walter Jenkins primarily while talking on the phone. The series also includes typed summaries and memorandums of many of the telephone conversations, White House telephone logs for Walter Jenkins, and a folder of notes taken by Shannon Ratliff. This series has its own system of box numbering, so the series should be noted when requesting materials from it.

The Personal Files were maintained by the White House Central Files and consists primarily of personal correspondence between Jenkins and associates. The White House Press Conferences series includes copies of transcripts of press conferences of the President and his press office staff. The FBI report & the President's statement are related to Jenkins' October 1965 arrest in the men's room of the YMCA on G Street in Washington, D. C.
