Scope and content note:

This series consists of files from various U.S. and international agencies during President Lyndon B. Johnson's administration. The files reflect subject matter and geographical areas for which the various agencies were responsible.

This series includes agendas, articles, budgets, clippings, letters, maps, memorandums, press releases, publications, reports, schedules, speeches, telegrams, testimonies, and transcripts from numerous agencies including a substantial amount of material on the Department of Defense, North Atlantic Treaty Organization (NATO), the United Nations, and the Department of State. The NSF, Agency File for the State Department includes material on the meetings of the Senior Interdepartmental Group (SIG) established by NSAM (National Security Action Memoranda) 341. In addition, there is also material on the Agency for International Development (AID), Arms Control and Disarmament Agency (ACDA), Central Intelligence Agency (CIA), Joint Chiefs of Staff, and the United States Information Agency (USIA). Some of the subject matter reflected in these files include administrative material, various projects for which specific agencies were responsible, and war games.
