MEMORANDUM FOR

JAKE JACOBSEN
HENRY WILSON ✓
JERRY RODIS

Jerry Rodis and I met with Frank Matthews of Central Files today and it was determined that we will henceforth file the project information with Central Files rather than maintain a separate Favor File for each Member. This will be done by retention of the present system of typing up the list of project notifications each day. Copies of each page of this list will be made so that there will be one for each Member notification as listed on such page. We will maintain the original chronological listings and Central Files will file the appropriate notification pages under each Member's name. We will also deliver to Central Files all of the past Favor File cards so that the Central Files will be up-to-date. As time permits, we will also make and deliver copies of the unfiled notifications (primarily November, December and part of January) so that the Central Files will be complete.

We will continue to deliver daily to each congressional liaison officer a complete list of notification calls made.

It was also decided that no separate file will be maintained by us on pictures and pens delivered to Members. Rather, when the same is done, a memorandum will be made of the fact and sent to Central Files and we will then have a complete record of this.

It was likewise determined that separate Member's files will no longer be maintained except as each liaison officer might maintain action files in his own office. Again, all files will be henceforward sent to Central Files, which will maintain them under the Member's files which they already have. Those Member's files which we now have we will send to Central Files as soon as time permits.

Sherwin J. Markman

WHITE HOUSE STORAGE FILE - MISCELLANEOUS

CONGRESSIONAL FAVORS FILE

(Cards removed from this file and separate file established of Servicemen's/Veterans Benefits. This file now located at beginning of Restricted file for this category.)
