

Congress of the United States

House of Representatives

Washington, D. C.

Friday —

Dear Bird:

No I kept at it until after one this morning I didn't finish "My lessons" and now I'm afraid it will be necessary for me to spend my Saturday and Sunday "behind the bars"

If the photographer keeps his word, about a week from now, you will get some proofs. I've had some Kodak pictures developed and they will probably be ready Tuesday. You saw all of them at San Marcos but I have need for some extra ones and, if interested, will send you what you want.

I haven't heard from Kelly in a week. Think he must be sick or out of town. Unless I'm still in Washington I was I want to join him in a trip to Mexico City. For years we have planned it and I'm anxious to take it

2/
Before I get too old to appreciate some
of the most interesting things to be seen
and done. Since I came here I've seen
so little of my real friends that sometimes
I yearn for their company - almost
like a child wanting to get to its mother.

My sister called last night and
told me all about Mother and home.
Daddy has a birthday the 11th and she
didn't want me to overlook it -
I shan't -

It is just now starting to get
real cold - This afternoon I'll have
to get my big black heavy overcoat
out of storage to cover up before I
go out to play in the night air. Am
always so afraid of colds. Just two
years ago next month got 6 weeks

3/ I was confined to bed with pneumonia. Three nurses, two visits daily by the doctor - didn't make me forget that little boys should be more careful -

I hope you have your letter Sunday - You never tell me when you get them and in maybe we will have to arrange for a special Sunday service for the Karnack postmaster -

Did you forget to tell me that you received the N.Y. pictures and the one for Alice? Say something about Kelly's Cottons speech in some letter - if you want to. Be prepared for a surprise - I've never been too deliberate - Sometimes real hoots - but always confident. And too cocky? Yes - Lyndon Baines
