

My mother also wrote - asked all about
you and wondered if it really loved-
you and writes "but be careful to select one
who has your ideas of life, real character, and
the graces you admire. I am sure you will
do this and rest assured I shall take her
into my heart and love her - next to my
precious boy". Then while I was rejoicing
over Mother's expressions a special
delivery came in from Mr. Dick -
He may be here the 14th -

Suppose you will be in Dallas Friday,
when this letter is delivered, but if you
are it will be waiting for you Sunday -
Know you will have a lovely trip and
wish I could be with you - goodnight

Dearest Bird -

Have just returned from town where I had
an Italian dinner with Maury, George, Susan
and Ralph Cameron. All afternoon we sat in
a smoke covered room pleading for more
money for a federal building and tonight
it was such a relief to just sit, sip
wine and dream of you while the others
were talking of the beauties of the Capital
City -

The sweetest letter you've ever
written was written Friday night -
It came today and made me kinda
Depend - and forget -
