#### **Scope and content note:**

This series is the primary location in the Johnson Library for diplomatic, military and intelligence materials related to the Vietnam War and to international relations with the Government of South Vietnam. It consists of White House memorandums; State Department and Defense Department telegrams, memorandums and reports; and Central Intelligence Agency (CIA), National Security Agency (NSA), and Defense Intelligence Agency (DIA) intelligence reports. Some materials from the John F. Kennedy and Dwight D. Eisenhower administrations are included in these files as well as some materials dealing with the origins of U.S. involvement in the Vietnam conflict.

The series includes correspondence, special studies and other diplomatic and military materials that were drafted by or sent to the staff of President Lyndon B. Johnson's special assistants for national security affairs. It also includes telegrams and reports exchanged between U.S. Ambassadors (Henry Cabot Lodge, Maxwell Taylor, Ellsworth Bunker) in Saigon and U.S. offices in Washington, DC, as well as diplomatic exchanges concerning Vietnam with nations that contributed to the defense of South Vietnam such as Australia, New Zealand, the Philippines and South Korea. It also includes material concerning nations that neighbor Vietnam such as Cambodia, Laos and Thailand, insofar as they relate to the Vietnam War.

Subjects covered in this series include U.S. military operations and economic assistance programs in South Vietnam; the air campaign against North Vietnam; Soviet and Chinese aid to North Vietnam; efforts to defeat the Viet Cong; South Vietnamese elections; Pacification; U.S. prisoners of war; international peace-seeking initiatives and bombing halts; efforts to build U.S. public support for the war; the anti-war movement in the U.S. and abroad; press coverage of the war; congressional attitudes towards the war; the August 1964 attacks in the Tonkin Gulf and the resulting Gulf of Tonkin Resolution; and the 1968 Tet Offensive and the siege of Khe Sanh (Huong Hoa).

#### Introduction and overview:

From November 1963 to May 1967 documents on Vietnam were filed in chronological order in 72 volumes, with separate folders for NODIS cables, Special Intelligence material, Special Category messages, and Southeast Asia material (see boxes 1-54). By October 1967 a formalized numeric-alphabetic subject file system had been instituted (see boxes 58-108), which was used through January 1969. Substantial amounts of Vietnam material, however, were filed neither in the chronological file (boxes 1-54) nor in the numeric-alphabetic subject file (boxes 58-108) but in boxes 108-262, as seen in the outline of the Vietnam Country File below.
