POST-PRES INTELLIGENCE BRIEFINGS

Scope and content note:

This series consists primarily of weekly intelligence briefings on worldwide events prepared by the Central Intelligence Agency and forwarded to former President Lyndon B. Johnson by the National Security Council. Each briefing is accompanied by a memorandum from a member of former President Johnson's staff, either Walt W. Rostow, William Jorden, or W. Thomas Johnson, that summarizes and analyzes the briefing. The file contains occasional memorandums from Henry Kissinger and other members of President Richard Nixon's National Security Council staff. It also contains cables and reports from the Department of State and the Department of Defense concerning Vietnam.
